## APPLICATION FOR LOT LINE REVISIONS

**NOTE:** A scaled diagram of the proposed lot line revision in relation to existing structures, property lines, existing septic system and water source must be shown on attached detailed plot plan. If there is an existing dwelling on property, the plot plan must show code-complying area (19-13-B100-ae) for primary septic system replacement.

**APPLICANT:**

|                |                   |     |
|----------------|-------------------|-----|
| Please Print   |                   |     |
| Name: _____    | Telephone # _____ |     |
| Address: _____ |                   |     |
| Street         | Town              | Zip |

**PROPERTIES AFFECTED BY LINE CHANGE:**

|                   |                          |                              |
|-------------------|--------------------------|------------------------------|
| Street Name _____ |                          | Town _____                   |
|                   | <b><u>Owner Name</u></b> | <b><u>Lot / Street #</u></b> |
| Property # 1      | _____                    | _____                        |
| Property # 2      | _____                    | _____                        |
| Add'l Property    | _____                    | _____                        |

**DESCRIPTION OF REVISION:**

\*Connecticut Public Health Code Regulations On Back

Revised 7-1-2016

## **Connecticut Public Health Code**

### **19-13-B100a(e)**

Sewage disposal area preservation. If public sewers are not available, no lot line shall be relocated or any other activity performed that affects soil characteristics or hydraulic conditions so as to reduce the potential repair area, unless the local director of health has determined that after the lot line relocation or disturbance of soils on the lot a code-complying area exists for the installation of a subsurface sewage disposal system. This determination by the local director of health shall be based upon analysis of existing soil data. If soil data is not available, the property owner shall perform soil testing. The property owner or the owner's authorized agent shall submit design plans or a sketch to demonstrate how the property contains a code-complying area that can accommodate a sewage disposal system. In no case shall a relocated lot line violate Subsection (d) of Section 19-13-B103(d) of the Regulations of Connecticut State Agencies that requires that each subsurface sewage disposal system shall be located on the same lot as the building served.
